PROFESSIONAL PROFILE

Disciplined college student with a focused ambition to work within the AI and ML field.

Currently studying for B.Tech Artificial intelligence and machine learning at M Kumarasamy college of engineering with predicted grades of 7.8 cgp, I have built a sound knowledge of Web development and digital marketing learnt through studies and projects. With a passion for Web development combined with workplace skills learnt through interests, I am well placed to start a career within Web development and add value to the industry.
